Profile

I am a passionate Frontend Developer with experience in React, Next.js, and modern web technologies. I specialize in responsive design, performance optimization, and user experience. I have a strong foundation in JavaScript, TypeScript, WebSockets, and SEO. My goal is to build scalable and high-performance web applications while continuously learning new technologies.

Skills

Frontend Development ● ● ● ● ●
HTML, CSS, SCSS, JavaScript
Bootstrap, Tailwind CSS
React, Next, Redux
TypeScript

Backend & Web Technologies ● ● ● ○ ○
WebSockets

CMS & SEO ● ● ● ● ●
WordPress & SEO

Education

Arian Institute of Higher Education of Science
2020 – 2025 | Tehran, Iran
"I have experience working on real-world projects and developing solutions independently.
I am currently looking for opportunities to contribute my skills in a dynamic and innovative team.

Languages

Persian
Bilingual or Proficient (C2)

English

Intermediate (B1)

Custom

In addition to programming, I have a deep interest in nature and animal rights advocacy. I also enjoy reading books related to astronomy and quantum physics. In my free time, I play the piano and seek to develop my skills through challenging projects. Although I don't thrive in team environments, I am fully committed to individual tasks and responsibilities.

Courses

Ongoing Courses and Projects
🎯 Currently learning Node.js and
enhancing backend development skills.
